ROCK ISLANDER'S TEAM IN CARBON CLIFF RUNAWAY

A team driven by Hector Dehadtster of Rock Island became frightened and ran away in the village of Carbon Cliff, in the east part of the county, at 8 o'clock this morning, resulting in the painful injury of Mrs. Dehadtster, who was thrown from the rig. Dehadtster and his boy and Mr. Strobby, the other occupants of the conveyance, jumped and were not hurt. Mrs. Dehadtster sustained injuries to her ankle and arm. She was given medical attention. The team was caught after running a short distance. The harness was torn to shreds and the shafts of the buggy broken. The horses were unhurt. Mr. Dehadtster and his party were on their way to Colona when the runaway occurred.

Some publishers in ancient Rome could turn out books rapidly and cheaply. A publisher of the Augustan era produced 1,000 copies of the second book of Martial in ten hours and these sold at about 12 cents apiece, gave him a profit of 100 per cent. This was done by employing slaves carefully trained to write swiftly and legibly. Working in batches of 100, with an overseer dictating the book in hand, the task was completed in a very short time. As soon as the copies were written they were revised, corrected, rolled up and bound. Being slaves, the men required only maintenance from their master and thus he could afford to sell their productions at a very low rate.

BOYS PREPARE TO LEARN TO SWIM

Exceptional Interest Being Taken in Y.M.C.A. Proposition for Free Lessons.

The boys who cannot swim are warming up to the proposition made by the Y. M. C. A. to teach them free of charge next week in a special series of lessons. The youngsters are coming in daily to register for the campaign, and they can hardly wait for next week to come.

Each boy is required to secure the consent of his parents before he can enroll, in order that no misunderstandings may arise. All the swimmers will be under the personal care and instruction of the physical director, Mr. Cleve, and every effort will be made to guard against accidents.

A free exhibition in the swimming pool will be given next Monday afternoon at 2:30, in which some of the older boys will participate. Any boy who brings his mother will be admitted free, and any mother who brings her boy will also gain free admission. This is arranged in order to give the mothers a chance to see the place where the boys are instructed, and to get an idea as to the kind of work done.

At 7:45 Monday evening, a swimming exhibition free to men only will be put on in the pool. Many fancy stunts in swimming and diving will be shown by some of the expert swimmers. Only men will be admitted to this exhibition, and the preference is given to men who are not members of the association, and to those members who cannot swim.

Beginning at 5 o'clock Monday afternoon, special swimming lessons will be given to men who cannot swim, daily through the week.

For the one week, June 1 to 6, a very unusual opportunity is given to men to join the Y. M. C. A. for the summer at a low rate of cost, which gives them the privilege of enjoying the swimming pool and playground during the entire hot season. This

special membership offer will be withdrawn after June 6, so that it is important for all who wish to get in to do so without delay.

The senior gymnasium class of the Y. M. C. A. has no very great need for a gymnasium or a playground either, when they can use the whole city for their work. Last night, led by the physical director, 15 stalwart young men, attired in their gymnasium costumes, took a long run and walk out through the city, covering several miles in their journeying.

The men are finding great pleasure and profit in this method of physical culture since the coming of warm weather, and they are all enthusiastic over it. Instead of staying indoors and going through the regular class work, the class goes out for a run, after dark, and thus gets fresh air and change of scene as well as the exercise.
